

New trends in OS

same same but different

Different architectures but, in the end, the same concepts defined in the 70s

But there are some new trends

- Multicore
- Energy efficiency (mobile and IoT devices)
- Virtualization (cloud computing)

New version of the course (Summer 2020)

- Better reflect on industry current standards and the newest trends
- A very hands-on approach to better understand x86 Operating Systems
